The following is an examiner's statement of reasons for allowance: The claims are not anticipated or deemed obvious over the prior art in which the claimed invention of a nailing device comprises a striker, a housing, a start valve, a trigger lever, a contact arm, a contact lever, the novelty residing in a switch operating member at a front top end of the contact arm for setting the desired mode, and a pivot restricting mechanism for blocking/restricting the contact lever from being pivoted, thus maintaining the operating state of a single shot firing mode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
